

# The list of publications in «Valve Industry» magazine in 2009

Author	Title	N	Page
Afanasieva O.V., Bakulina A.A., Ter-Mateosyants I.T.	Russian Valve Industry in 2008. Figures and facts. Analytical review	3	24
Afanasieva O.V., Bakulina A.A., Barlamov A.L.	News digest	5	4
Afanasieva O.V., Makarov V.V., Ter-Mateosyants I.T.	What is good?	6	28
Adkins M., Ehlers P.	How to Choose a Ball Valve to Curb Fugitive Emissions	2	35
Bakulina A.A.	Price analysis of raw materials and materials used in valve industry	1	68
Bartlett R.	Crisis? What crisis?	1	14
Berezkin A.A.	«GuSar» company: emphasis on quality is a guarantee of success	1	64
Berezkin A.A. (an interview)	Where there's a will, there's a way!	6	73
Bezmaly V.	Virtual boundary needs actual defense!	Part 1	20
		Part 2	42
Bokhno I.	The state of IT – investment now changes rather noticeably	3	46
Chater J.	Petroleum refineries: affected by the recession, but the struggle against corrosion goes on	6	68
Churumov S.	Mobilizing management or how to overcome the situation?	6	42
Dolmatova N.V.	Friction welding	5	57
Dubach A., Muller F.	Organizational and technological innovations in valve industry	5	28
Dunaevskiy S.N.	The review of operative and new normative documents for nuclear valves	2	12
Dunaevskiy S.N.	The conference «Neftegasstandart – 2009»	5	6
Dunaevskiy S.N.	Roundtable discussion – 2 or again about working out of «Fundamental NPAA standard»	6	32
Epishov A.P.	Sealing bands – a new approach to seal of flanged joints	4	66
Epishov A.P.	Strategic conception of flange joint sealing in critical equipment	5	44
Ermakov V.V.	Standardization of corporate management systems	6	36
Feldman I.	Such a trite word – «marketing»	Part 1	85
		Part 2	80
		Part 3	66
Filippov N.G.	Organization and realization of work for increase of reliability of electric actuators at Nuclear Power Plant (NPP)	5	71
Gaida G.	Bubble-free and helium tight at 196° C	3	82
Gambale D.	Metal valves for highly corrosive applications	3	63
Gorelov A.	Well, it's a crises, a mere crises	1	15
Gorelov A.	About Poland, people and few words about valves	Part 1	26
		Part 2	14
		Part 3	12
Gorelov A.	Steel autumn in Krokus	6	86
Gorelov A.	The true story how the CAD from overseas settle down in Russia	4	53
Holtgraver E.	Emergency Shutdown Valves: Options for Partial Stroke Testing	1	56
Ionautis R., Chernoshtan V.	Trim of power control and throttle valves. State and prospects	1	25
Johnson G.	Back to basics: The A to Z valve materials	1	42
Jorge T.	A case for the sliding gate valve in pressure regulator applications	4	64
Kamola Z.	Revolution in technology of leakage control	4	73
Kabanov B.C.	We need to cooperate closer!	2	18

Author	Title	N	Page
Karakulov M.N.	The actuators of pipeline valves on the basis of plunger gearing with gas mechanical wave-generator	6	54
Katkov S.N.	The development is continuing. A mica as a gasket material	5	50
Kiesbauer J., Vnucec D.	Improvement of IEC 60534-8-3 standard for noise prediction in control valves	5	35
Kirmanen J.	Valve Solutions for Biofuels	4	39
Kolka I.A.	On the schemes of equipment's acquisition using both internal (Russian) and international leasing	5	24
Kovalev V.I.	Bellows, metal and rubber-cord compensators	2	46
Kulin A.	The Russian market of seals and gaskets: condition, problems and prospects	4	48
Makarov V.V., Ter-Mateosyants I.T.	The report on activities of NPAA during the year 2008	3	6
Makarov V.	The principles of a technical reequipment	3	29
Markolin M., Ignatiev V.V.	Using of equipment of company TREVISAN for highly productive machining of basic parts	5	68
Matveev A.V., Zhidkov S.V., Adamenkov A.K., Veselova I.N., Galivec E.U., Usanov D.A.	Our experience of valve stationary diagnostic systems' development	1	49
Matveev A.V., Zhidkov S.V., Adamenkov A.K., Veselova I.N., Galivec E.U., Usanov D.A.	The comprehensive approach to the diagnostics of electrically actuated valves in respect to resource management	2	53
Matveev A.V., Skladnikov A.F.	Diagnostics of valves with electric actuator by means of active power factors	3	67
Mozgechkov V.A.	Electric actuators for valves. General tendencies of development	6	46
Nesterova S.V.	Precipitation-hardening stainless steels for high-strength valve details	1	39
Nesterova S., Mariyn I.	The alternative to the expensive austenitic steel – the high-quality European steel – «duplex»	2	49
Nesterova S.V.	Magnetically soft ferritic stainless steels for solenoid valves	5	46
Öxler G.	Rubber Liner in Wafer & Lug – Type Butterfly Valves	2	60
Öxler G.	How to prepare Butterfly Valves with pneumatic part turn actuator for shipment and storage?	4	70
Öxler G.	Double eccentric Butterfly Valves - the real difference in Valve design and Valve performance in detail	5	54
Öxler G.	Why are engineers asking for manual operation on drive systems and what is the reason to have a manual override on automated process valves?	6	58
Pavlov A.A., Kulgavenko U.L., Pavlov U.K.	STO Gazprom 2-4.1-212-2008 and ball valves of new generation	2	66
Paradeev V.D.	The experience of innovation modern equipment	3	40
Polezchuk M.A., Puzrin L.G., Chevtcov V.L.	An electroslag casting – the most progressive method of manufacturing of valve's body of high pressure	5	61
Prince B., Yates D.	Operating characteristics and sizing of pneumatic actuators	3	73
Revzin V.B.	The choice of the future. The comprehensive approach to the acquisition of new equipment	3	26
Rusakova N., Pakhomova E.	Welcome to the Celestial Empire!	6	78
Salynikova D.	The legal basis of courts of arbitration's activity in Russian Federation	4	42
Sayapin V.V., Urivaeva E.A.	Jet actuators «KITEMA» – environmently friendly systems of ball valves control at gas-distributing stations and gas-mains	2	27
Shaforostov O.D.	The experience of development and field experience of on-off and control ball valves with seals made of fluoroplastic, thermal expanded graphite and metal at refineries	4	61
Shilyaev S.G.	A realization of modernization program of the main production facilities of JSC Tulaelectroprivod	3	38
Shiryaev V.V.	The valves of CKBA: some developments of the last years	2	30
Smirnov A.	Valves' operation and maintenance problems on «KINEF» plant	1	53
Sychev D.V.	The classification of requirements to seals of planar detachable joints	4	20
Syrotkin V.	Once again about the problem of actuator choosing	5	82
Tarasiev U.I., Tokmakov O.A.	The ways of valves safety ensuring	3	16
Tarasiev U.I.	Some ideas on research engineering in valve industry	5	10
Tsikch S., Grishin V., Lisitsky V., Glebova Yu.	The using of carbonitride processing at power valve manufacture	1	33
Tyunin B.N.	Delivery of shutoff gate valves DN 800 CMFF RBMK for Leningradskaya Nuclear plant (NPP)	4	87
Ufimcev V.A., Shanaurin A.L.	The increasing of swing check valves maintainability	2	68
Zarjankin A., Chernoshan V., Noskov V., Rogalev A.	How to increase the hydrodynamic load on discs of swing check valves	1	28
